

Together we convert Tasis to... Energy

WHO WE ARE

- In 2015, despite the negative potential of the time, we, thinking positively, create TESIS, produce ENERGY and establish TESIS ENERGY
- Graduate electrical engineers - specialized and experienced technicians, certified by the European PVTRIN Program, we staff the Greek company TESIS ENERGY providing high quality integrated services and products in the design and implementation of PV systems, nationwide

SERVICES

Integrated PV systems (turn key)

- ✓ Study – Design
- ✓ Supply
- ✓ Licencing
- ✓ Manufacture
- ✓ Maintenance

TASIS Energy is staffed by Engineers and Technicians with excellent scientific and technical training and professional experience in the field of PV systems.

PORTFOLIO

- PV Parks (feed-in tariff) 17 MWp
- Home appliances PV 7,2 MWp
- Auto production (net metering) 12,5 MWp
- Autonomous - Backup PV 70 kWp
- 1st PV system **Net-Metering** (Unilever)
500kWp Greece (2017)

ADVANTAGES OF TASIS

-  **PVTRIN** (European Photovoltaic Installer certification)
-  **SMA** Installer A-Z and technical training
-  **KOSTAL** Installer Certification
-  **FRONIUS** Service partner qualification training
-  **ALEO** Technical training
-  **SOLAREDGE** Installer advanced certification
-  **HUAWEI** Advanced Installer Training
-  Member of the Technical & Trade Chamber
-  100% Greek General Partnership
-  Nationwide coverage
-  24/7 Technical support
-  Multi-year and specialised knowledge of PV systems
-  1.500 satisfied clients
-  Continuous upward development and universal recognition
